Professional Experience:

Full Stack Developer

Olumick Solutions

2023 – Present

Responsibilities & Achievements

1. Developed and maintained full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
2. Built responsive and interactive frontend interfaces using HTML, CSS, JavaScript, and TypeScript.
3. Integrated TanStack Query for efficient API data fetching and state management.
4. Designed backend APIs and server-side logic with Node.js, Express.js, and PHP.
5. Managed databases using MongoDB and MySQL for secure and optimized data storage.
6. Collaborated with team members to improve application performance and user experience.
7. Implemented authentication systems and RESTful API integrations.
8. Participated in debugging, testing, and deployment of web applications.

Projects

1. MERN Stack Web Application
2. Developed a dynamic web application with React.js frontend and Node.js backend.
3. Implemented user authentication and database integration using MongoDB.
4. Improved application performance and responsiveness across devices.
5. PHP Management System
6. Built a PHP-based management system for handling records and user operations.
7. Integrated MySQL database and secure login functionality.
8. Responsive Portfolio Website
9. Designed and developed a personal portfolio website using HTML, CSS, and JavaScript.
10. Optimized for mobile and desktop viewing.
